ABOUT US

At Tejvisaconsultancy, given a chance, we will make sure that you do not regret putting your hard-earned money with us. We will aim to the best of our capacity to make your/your child's dream of studying abroad come true.

Mr. Kashyap Patwa
[Founder]

Our Founder, only 24 years old, has embarked upon this entrepreneurial journey. Having returned from London, the United Kingdom while, studying for a Master's in Management from Brunel University, he realized the difficulties Indian students faced before studying abroad. So, keeping that in consideration, he has started this venture called Tejvisaconsultancy. Being a millennial in the truest sense, he is tech-savvy, loves meeting new people, tries different things, and enjoys reading. Already at this young age, he has traveled to the major countries in the world, most notably the United States of America, Canada, the United Kingdom, and Hong Kong. While studying in the UK and before going there, he observed the pain parents and students had to face right from choosing a particular agent, the desired course, the right college, and most importantly, managing the finances. He realized the need for transparency and efficient customer service in this field, and that is what he aims to achieve from this start-up.

FACTS

- Canada is the largest country in the Western hemisphere and the 2nd largest country in the world after Russia and borders only one country, the United States of America.
- Canada as a whole has a population density of just 4 people per square kilometers, with a total population of 38 million. Almost 82% of all Canadians live in urban areas.
- The Canadian federation consists of 10 provinces and 3 territories.
- There are two official languages of Canada- French, and English
- Canada has a staggering literacy rate of 99%. It is one of the highest in the world.
- Canada is an extremely diverse and multi-cultural country. The UN has consistently ranked Canada as one of the best places to live in and work.

WHY CHOOSE CANADA ?

- You can avail quality education with affordable tuition fees and living expenses.
- Canada has a multicultural society with rich diversity and an extremely high quality of life.
- The country also offers better Permanent Residency(PR) opportunities in the future.
- Even during these tough times of Covid-19, in 2020 itself Canada issued 1.3 lakh study permits to Indian students.
- You can work while studying
 - During School - 20 hours/week (part-time).
 - During Holidays - more than 20 hours/week (full-time).

STUDENT DIRECT STREAM (SDS)

Under normal circumstances and for citizens of another country, the time to avail a student visa is anywhere between 90-120 days. However, for Indian students, there is a special provision called the Student Direct Stream or SDS.

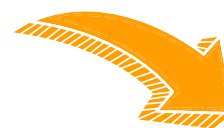

Under SDS, the visa processing time is only 20 calendar days provided the students fulfill the following conditions:

- Admission in a full-time study program at a Designated Learning Institute (DLI).
- IELTS score of 6.5 bands overall with no less than 6.0 in each of the four modules.
- Purchases of a Guaranteed Investment Certificate (GIC) of \$10,200 CAD to cover living expenses for the first year of stay.
- Proof of payment of first-year tuition fees.
- The Medical Examination is to be done at least one week before the submission of the visa application.

POST STUDY OPPORTUNITIES

On completion of 1 year of study, you will be eligible for 1 year of Open Post-Study Work Permit. However, completing 2 years of studies provides you with 3 years of Open Post-Study Work Permit.

After completing 1 year of Full-Time Work (1560 hours) under your Open Post-Study Work Permit, you can apply for Permanent Residency (PR) under the Federal Skilled Worker (FSW), Canadian Experience Class (CEC), or Provincial Nominee Program (PNP).
